Quite possibly the most iconic design in the catalog, Cocoon was originally dreamed up for a furniture exhibit in Santa Monica, California and has been in production ever since. Despite its generous size, it is made to perform several tasks: sofa, sleeping lounge, side table. This makes it highly suitable for a small flat. Drawers may be added to the lower deck for storage of sleeping materials. Finger joints along the sides and back highlight exceptional wood and craftsmanship. Place in the center of a room for optimal beauty. Signed and dated.
