The Wallscape concept was inspired by mid century coat racks and valets found in Paris and throughout Europe. It is an effortless way to display curated material such as pottery, photographs and books. Shifting what's on display changes the look entirely; from a single piece of pottery to a wall of books. May be made in multiples to link across a wall for maximum storage and visual impact. Mix and match sizes and shapes. A French cleat makes the design structurally strong.

Custom dimensions and woods available.

shapiro joyal studio furniture is made to age gracefully. All our lumber is carefully chosen, with grain clarity, strength and overall beauty at the forefront. Our designs stay intentionally quiet, working in tandem with beautiful materials to create a cohesive and timeless design. Woods will become enhanced with age, resulting in a rich patina that is treasured by collectors and easily recognizable as coming from a company that makes quality its priority.

Handmade in Los Angeles since 1998.
